

TEMPORARY THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: KOINONIA CONSTRUCTION, INC.
Source: UNDERGROUND
Basin: DIXIE CREEK-TENMILE CREEK AREA
Manner of Use: MUNICIPAL
Period of Use: ONE YEAR FROM DATE OF ISSUANCE.
Priority Date: 04/11/1984

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit, to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 47973, Certificate 13909, is issued subject to the terms and conditions imposed in said Permit 47973, Certificate 13909 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This temporary permit is approved for the entire 2.85 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 2.66 acre-feet, can be diverted annually. Additional diversion up to the total 2.85 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 2.66 acre-feet to be exceeded.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire 1 year after the approval of the permit at which time all rights herein granted shall revert to the right being changed by this temporary permit.

This temporary permit will revert to the base right upon expiration, and any future application to change the base right will be subject to additional evaluation and determination with respect to the permanent effects on existing rights and the resource within the groundwater basin. This evaluation will include, without limitation, demonstration by the applicant that there will be no adverse effects on senior surface water rights holders downstream of the point of diversion.

(Continued on Page 2)

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

This temporary permit is approved for the entire 2.85 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially the net consumptive use amount of the base right, 2.66 acre-feet, can be diverted annually. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **not to exceed 0.0322 cubic feet per second and 2.66 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

N/A

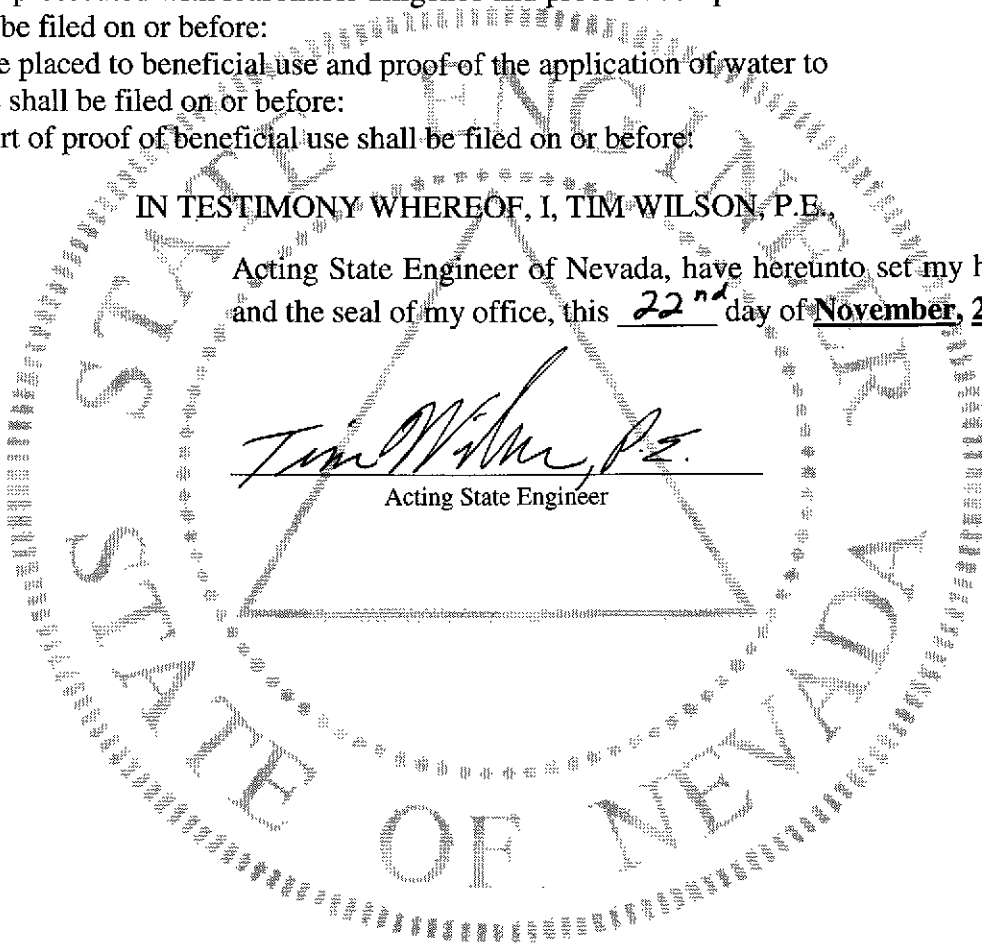

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, TIM WILSON, P.E.,

Acting State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 22nd day of November, 2019

Acting State Engineer

TEMPORARY

hereby make(s) application for permission to change the

☒ Point of diversion ☒ Place of use ☒ Manner of use ☒ of a portion

of water heretofore appropriated under (Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree)

Permit 47973, Certificate 139091. The source of water is Underground (Well 101 / Charwood Well)
Name of stream, lake, underground, spring or other sources.2. The amount of water to be changed 0.0322 CFS 2.85 AFA
Give diversion rate in cubic feet per second (CFS) AND duty in acre-feet annually (AFA)3. The water to be used for Municipal
Irrigation, power, mining, commercial, etc. If for stock state number and kind of animals. Must limit to one major use.4. The water heretofore used for Irrigation and Domestic
If for stock state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

NW1/4 NE1/4 of Section 17, T.33 N., R.57 E., M.D.B. & M., at a point from which the Northeast Corner
of said Section 17 bears N 74° 45' 00" E, 2615.00 feet.Please use the map that accompanied Permit 73445 to illustrate the proposed point of diversion for
this application.

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer)

NE1/4 SW1/4 of Section 23, T.32 N., R.55 E., M.D.B. & M., at a point from which the Northwest Corner
of said Section 23 bears N 19° 34' 57" W, 4126.46 feet.4-48
21

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

See Attached

Please use the map that accompanied Permit 73445 to illustrate the proposed place of use for this application.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Existing place of use: 0.95 acres in the NE1/4 SW1/4 of Section 23, T.32 N., R.55 E., M.D.B. & M.

0.95 acres in the NE1/4 SW1/4 of Section 23, T.32 N., R.55 E., M.D.B. & M., to be removed from irrigation.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches, pipes and flumes or drilled well, pump, and motor, etc.)

Existing well, and distribution system serving Spring Creek, Nevada

12. Estimated cost of works \$10,000

13. Estimated time required to construct works 1 year

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 1 year

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary:)(Failure to provide a detailed description may cause a delay in processing)

This application and the subsequent permanent application changes the point of diversion, place of use and manner of use of a portion of Permit 47973, Certificate 13909 to a well controlled by Great Basin Water Company under Permit No 74597 that is connected to the water system that serves Spring Creek, Nevada. This application and the accompanying application changing the point of diversion, place of use and manner of use of a portion of Permit 44482, Certificate 14280 will provide Great Basin Water Company the waters needed to serve water to Assessor's Parcel No. 040-002-012 and 040-002-013, that are being developed for use as apartment units in Spring Creek. At such time as the permanent application is reviewed and approved, the necessary Reports of Conveyance will be filed transferring ownership of the waters under this application to Great Basin Water Company.

16. Miscellaneous remarks:

The total amount of water that is being required by Great Basin Water Company to be transferred to their well in order to serve the development occurring on Assessor's Parcels 040-002-012 and 040-002-013 is 5.04 acre feet. A portion of this total is being transferred from Permit 47973, Certificate 13909 in the amount of 2.85 acre feet. It is anticipated that the duty being changed by this application will be reduced to 2.65 acre feet when the new permit is issued due to the Net Irrigation Water Requirement in the Dixie Creek-Ten Mile water basin. The balance of the total 5.04 acre feet needed, including the .20 acre feet reduced from the change of Permit 474973 will be transferred to Great Basin Water Company's well from Permit 44482, Certificate 14280 by the change application being filed herewith.
